

SB Naturmin WSP Aminos 80%

Description

SB Naturamin WSP is the richest product on the market (80% w/w), highlighting its high contents of serine and proline, glycine-betaine promoters, main protective components against thermal and hydric stress and a highly concentrated soluble amino acid growth promotor in a high purity soluble micro pellet format and with a elevated concentration of Free Amino Acids of 80%.

SB Naturmin WSP unique formula rich in Proline and Serine protects the turf plant from adverse effects caused by high concentrations of inorganic ions, high temperatures, salinity conditions and lack of water.

We recommend to use on turf when high stimulation is needed when there are high demand or stress on turf and this will help the turf overcome stress (Drought, cold, pests, diseases and high wear situations).
