

SB BIOPLUSMAX

Description

Soluble broad-spectrum consortium of compost tea compatible fungi and bacteria to optimise fertiliser use and maximise plant and soil health. SB BiolplusMax also aids in fixing nitrogen within the soil as well as solubilising phosphate, making it available to the plant. It contains carbohydrate bio-stimulants to promote the initial growth of the microbial population.

Specification

Bacillus spp, Pseudomonas sp, Paenibacillus sp, Azoyobacter sp, Azspirillum sp, Beijerinckia sp.
Total count: 1×10^9 cfu/g Trichoderma sp. Total fungal count: 2×10^9 propagules/g Carbohydrate bio stimulant.

Application

Add **SB BIOPLUSMAX** to compost teas 1 hour before spraying or dissolve into a bucket of water before adding to the sprayer.

500gm per Ha.

Water volumes: soil drench 600 L per Ha

Do not apply in high UV conditions or drought conditions unless suitable irrigation is available.

Compatibility

Compatible with most biological remedies and organic biostimulants.

Soil Biology Ltd, Unit 30 Branbridges Industrial Estate, East Peckham TN12 5HF
